

## SOCIAL CLUB FEEDBACK

As always, we very much welcome your ideas and input as to what events or activities you think we should be organising. We are always looking for new venues so if you have any suggestions we would really like to hear from you.

Currently we are meeting on the first Friday evening of the month – does this work for you? Is there another day/time you would prefer? Would you rather meet on a more or less regular basis? Would you be more likely to attend an outing or activity rather than a dinner or a meal? If you have any suggestions for a location that would make it easier for you to attend an event, please let us know and we will try to accommodate this in our future planning.

For example, we are aware that currently the regular Social Club dinner falls on the same day as the African Women's Day, although one is in the evening and the other during the day. Does having the two events on the one day make it difficult for some of you to attend? Would it be better to reschedule the Social Club evening to the third Friday of the month?

This is **your** Social Club, so we would really like your feedback on the dates, timing, frequency and accessibility of events so that we can better cater to everyone's interests. We really want to canvas everyone's views on what you personally would like to see in, or get from the Social Club.

Please send your thoughts/suggestions/ideas to our dedicated email address
